Master's Degree - Software Engineering Manager - CESI Alternance

Oct 2020

Bachelor's Degree - Maintenance and IT Support Manager - CESI Alternance

Sept 2018

Professional Development: Mastering the deployment process with Docker and DevOps concepts

PROJECTS

OBS remote web – 2023

OBS is an application that permit to record or stream your content from your computer to different provider like Twitch for example. I've made a React application that allow to control OBS through web socket. This allows users to control their stream through the web.
